

BLACK & WHITE SHROUD PHOTOGRAPHS

In the past the Society has had some difficulty organizing supplies of black & white prints of the Shroud. Rodney Hoare has, however, now made himself responsible for this particular aspect of the Society's activities, and has quarter plate negatives from which 10 inch by 8 inch prints can be made at a cost of £3.50 per print. The available photographs are:

- (i) Positive of the entire Shroud
- (ii) Negative of the entire Shroud
- (iii) Negative of the Shroud face
- (iv) Positive of the Shroud face

Rodney Hoare points out that where the entire Shroud is required, although the prints will be 10 inches long, they will of course be narrower than 8 inches.

Orders should be placed through Rodney Hoare, who has details of other sizes and their prices. His address is The Crest, 23 Elm Grove, Salisbury, SP1 1JW. Cheques should be made out to the British Society for the Turin Shroud.

TAPE-RECORDINGS OF SHROUD LECTURES

Rodney Hoare also has tape-recordings of certain of the Society's lectures, copies of which can be obtained from him at a cost of £2 per cassette. These are as follows:

"Carbon dating work at Oxford"	Nick White.
"Medical Opinions"	Prof. James Cameron & Mr. Randle Lunt
"An Italian Scientist and the Shroud" (2 cassettes)	Prof. Luigi Gonella
"A Microanalyst and the Shroud" (11 Sept. 1980)	Dr. Walter McCrone

These tape-recordings can be ordered direct from Rodney Hoare at the same address as above.

SOURCES OF INFORMATION AND MATERIALS ON THE SHROUD

Br. Joseph Marino O.S.B. has produced a useful list of international organizations providing information and materials on the Turin Shroud. Copies can be obtained by sending a self-addressed envelope with international reply coupon (obtainable from a post office) to: Br. Joseph Marino O.S.B., St. Louis Prior, 500 S. Mason, St. Louis, Missouri 63141, U.S.A.
